Physician Affiliate Newsletter

— February 2019 —

Welcome!

This monthly newsletter provides you with resources and important information from our team at Regeneris Medical headquarters to you, our affiliates. Look for it in your inbox at the beginning of each month.

Letter from Kristin Corrado

Happy February Regeneris Affiliates,

As we push through the winter and colder temperatures, now is a great time for you and your staff to review the CRIO training video. CRIO is an electronic database, used to capture safety and efficacy for SVF treatments. As a Regeneris Medical Affiliate, all SVF treatments, performed per protocol, are required to be entered into CRIO. Currently, there are 13 Registry indications and 1 IRB MSK study, if approved.

During your on-boarding process, you watched a 20 minute training video. This video walks you through entering a subject from start to finish in CRIO. Please log into our website to access the CRIO training video to view with your staff.

As a reminder, all sites are required to invite me as an external user to each registry and IRB study where data is added. This step is crucial to allow Regeneris to monitor your study activity. When logged in, you can also add staff within your organization to help you with data entry for each subject.

Please bookmark CRIO and the Regeneris Affiliate log-in pages to access frequently. Our new website is now live, which will require you to recreate an affiliate log-in if you have not already done so.

<https://www.regenerismedical.com/affiliatelogin/>

Please share with your staff and as always, any questions, please reach out.

Stay warm!

Kristin
