Physician Affiliate Newsletter

— January 2019 —

A photograph of a man and a woman smiling outdoors. The man on the left has grey hair and is wearing a dark grey button-down shirt. The woman on the right has blonde hair and is wearing a light blue cable-knit sweater over a patterned scarf. They are standing in front of a sandy beach and some green hills under a clear sky.

Welcome!

This monthly newsletter provides you with resources and important information from our team at Regeneris Medical headquarters to you, our affiliates. Look for it in your inbox at the beginning of each month.

Letter from Kristin Corrado

Happy New Year Affiliates,

Regeneris Medical is excited for 2019! We are thrilled to announce our Affiliate Program has grown to over 50 sites, and look forward to continued growth and collaboration with our affiliates over this next year.

The Regeneris Medical website will get a revamp early in 2019. It will continue to feature our

affiliate network, but will now have a more streamlined process to access digital download material such as marketing content, consent forms, protocols and more. Our shop will continue to offer both the Regeneris Medical Standard and Large procedural kits for all your SVF treatments in both the registry and/or the IRB study. Be on the lookout soon for instructions on navigating our new site and shop.

Affiliates, we want to hear from you this year. Have an idea or suggestion on items or services that you would like Regeneris to offer affiliates? We welcome your input and together with your help, we can continue to build a strong collaborative network of physicians dedicated to regenerative medicine.

Wishing everyone all the best in 2019!

Happy New Year

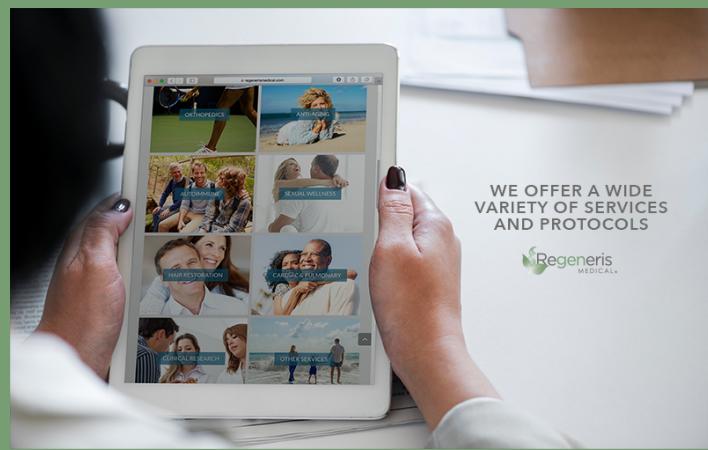

Kristin

Coming Soon

We have a new and improved website coming very soon that will make it easier to access the Provider Portal, download free materials, and order kits. We'll keep you updated on when it will launch.

Social Media Graphics and Images

Whatever social media platform your practice utilizes, it is all about consistency and quality content which will drive traffic to your website and convert patients.
